ARIEL ROSA-OTERO

Water Specialist for Puerto Rico & U.S. Virgin Islands
787.552.4415 | arosa-otero@rcapsolutions.org

Mr. Rosa-Otero joined RCAP Solutions in May 2019. He brings 30 years of experience working for the Puerto Rico Aqueduct and Sewer Authority (PRASA), which owns and operates the island-wide public water and wastewater systems, serving the majority of Puerto Rico's population. During his tenure, Mr. Rosa-Otero has served in a variety of roles at PRASA including: Compliance Manager, responsible for ensuring plants were implementing appropriate drinking water standards and procedures; Environmental Emergencies Responder, supervising the cleaning and disposal of both hazardous and non hazardous chemicals; Support Team Member, providing support to rural communities; and Research and Development Manager, identifying technologies, equipment, products and procedures to help improve processes and treatment of drinking water and wastewater plants. He brings both the experience and knowledge to improve and maintain the quality of drinking water from the source to the public, and the ability to assist communities with both federal and local laws and regulations. Mr. Rosa-Otero's expertise will make a difference for small, rural communities that need assistance with their drinking water and wastewater systems.
