

RCAP Project Highlights

Where:
West Danby, NY

Problem:
Abandoned/neglected water system.

West Danby *Income Survey*

West Danby Water District has a marginal water storage tank in danger of imminent failure. They also have some aging deteriorated distribution system piping. The NYS Office for Community Renewal (OCR) appreciated the magnitude of the challenge for this small community system but needed documentation of funding eligibility before the town could apply for a Community Development Block Grant (CDBG).

RCAP Solutions assisted the town of Danby to document funding eligibility for water system improvements under both the Community Development Block Grant Program (CDBG) and USDA Rural Development's Loan/Grant Program.

Outcome: The Community was awarded a \$600,000 Community Development Block Grant, enough to cover the entire cost of the improvements.

RCAP Solutions works with communities to address a broad range of needs, including community infrastructure, and to promote public, environmental, and economic health.

RCAP Solutions is a member of the Rural Community Assistance Partnership. RCAP is a national network of regional nonprofit organizations that provide comprehensive, on-site technical assistance and training to help small, rural communities address their drinking water, wastewater, and other community development needs.
