

RCAP Project Highlights

Where:
Brookfield, Massachusetts

Problem:
Funding Acquisition

Solution:
Conducted an Income Survey in preparation for funding acquisition.

Wagon Wheel Cooperative *Funding Acquisition*

The Wagon Wheel Mobile Cooperative Community is located in the small Central Massachusetts Town of Brookfield. The community is made up of 144 homes served by a community ground water system and several onsite wastewater systems.

The Park is under order by the Massachusetts Department of Environmental Protection to relocate the community's wastewater systems to a central location, away from the drinking water well.

RCAP Solutions conducted an Income Survey of the Park's residents to determine funding options for the project based on USDA Rural Development loan and Community Block Grant requirements.

Furthermore, RCAP Solutions is providing technical assistance throughout the project including but not limited to the location of supplemental funding. In this area RCAP Solutions has been searching extensively for grants and low rate loans. We are currently working on securing an Intermediary Re-lending Program (IRP) Loan for the Wagon Wheel Cooperative; a USDA-RD loan program administered by RCAP Solutions, Inc.

RCAP Solutions works with communities to address a broad range of needs, including community infrastructure, and to promote public, environmental, and economic health.

RCAP Solutions is a member of the Rural Community Assistance Partnership. RCAP is a national network of regional nonprofit organizations that provide comprehensive, on-site technical assistance and training to help small, rural communities address their drinking water, wastewater, and other community development needs.
