RCAP/AWWA Workshop

Small System Operator Training: Achieve and Maintain Compliance with the SDWA (Systems <10,000)

June 2 – Jeff's Catering, 15 Littlefield Road, Brewer, ME – 8:00a.m. – 3:30p.m.

Workshop Description:

Your utility faces daily-to-day challenges providing reliable, safe drinking water for your customers while avoiding costly violations. The American Water Works Association (AWWA), in conjunction with the Rural Community Assistance Partnership (RCAP), and the New England Water Works Association (NEWWA) is offering a FREE 1-day workshop to help your utility learn about compliance with drinking water regulations and steps to avoid costly violations. This workshop is made possible by funding through the U.S. EPA and AWWA's partner, RCAP.

Continuing Education Credits - AWWA will offer TCHs for workshop attendance (pending state approval at time of mailing). Individual registration is required through NEWWA.

Audience: Operators, managers, or governing body of a small system.

What topics will be covered at the workshop

American Water Works Association

Course Presenters:

Arthur Astarita is a water resource specialist and the Maine State Lead for RCAP Solutions. He is a professional geologist and joined RCAP in March 1998 after 22 years as an international petroleum explorationist. He has helped complete numerous water and wastewater infrastructure improvement projects throughout New England.

Mark Johnson is a technical assistance provider and state lead in Vermont with RCAP Solutions. He has more than 15 years' experience in water treatment and distribution. He has a bachelor's in civil and environmental engineering from Northeastern University in Boston, and has worked in the municipal and private sector as a certified water treatment and distribution operator. He has been certified in water treatment, distribution, backflow testing, and cross connection control program administration in several states.

Rebecca Reynolds is a community development specialist with RCAP Solutions. She has more than 20 years' experience in the water and wastewater field, including water and wastewater operations, laboratory processes, operator training, and asset management. She is a certified Class IV Water Treatment Operator, Class III Distribution System Operator, and Wastewater Treatment Operator V in Maine; a Certified Environmental Specialist, and a Certified Check Up for Small Systems (CUPSS) trainer.
